

# Amplified HEARING

A hearing health program of 

*Helping to improve hearing no matter life's circumstances.*

## Who can they help?

We know that sound amplifiers are not a fit for everyone, especially those needing something permanent. However, for populations unable or unwilling to care for hearing aids, those receiving end-of-life care, or people who need temporary assistance, they can be a great solution!

## Device Features

- Digital hearing enhancement (up to 40dB increase)
- Standard and noisy modes
- Silicone body for comfort and easy cleaning
- Universal fit for left or right ear use
- S, M and L ear tips for correct sizing
- Includes custom storage case and soft-touch controls

## Potential Partnerships

Ideas include:

- Homeless shelters
- Emergency shelters
- Hospices
- Crisis centers
- Rehabilitation facilities

## Ordering

Available in multiples of 6 and includes size 13 batteries (shipped separately) and S&H

### Base Pricing

\$60 for 6  
\$100 for 12
