

Mack's Audibles
Personal Sound Amplifier

Amplify Sound.
Enhance Life!

What is Mack's® Audibles®?

- Mack's® Audibles® is a wearable electronic product (PSAP*) designed to amplify sound for those who may need an occasional volume "boost" to hear more clearly. ** a PSAP is a Personal Sound Amplifier - it is not a hearing aid.*
- Mack's® Audibles® are unique in that the sound amplifier is positioned in the ear canal, providing optimal volume and sound clarity where it matters most – in the ear.
- Clean, simple, fashionable design.
- Comfortable to wear. Easy to use.
- If your patients sometimes need to amplify the world around them in business, entertainment, educational or social situations, Mack's® Audibles® are a simple solution to help them hear what they've been missing.
